SPEEDED ACROSS CONTINENT.

To Reach Bedside of His Wife Who Was Critically Ill.

Burlington, Feb. 19.—The condition of Mrs. H. Nelson Jackson is reported as being more favorable than it has been since she was taken ill. Yesterday a consultation of physicians was held and an operation was deemed necessary. Dr. P. E. McSweeney, assisted by Dr. H. C. Tinkham, performed the operation. It was found that Mrs. Jackson was suffering from a mechanical obstruction of the intestines. She showed a remarkable recovery from the operation and her symptoms were favorable last night.

Dr. Jackson, when he received the news of Mrs. Jackson's illness, was at El Paso, Texas, en route to New York, where he expected to meet her. He got a fast train to Chicago where he chartered a special train, with the understanding that he was to have a clear track to this city. He left Chicago at seven o'clock Wednesday morning and arrived in Buffalo at 3:45 p. m., the train, which consisted of only an engine and one car, making record time. Often the time was announced by the conductor as three miles in two minutes. At Syracuse there was a delay of an hour because of a hot box to the engine. The time from Chicago to Buffalo averaged 60 miles an hour and this speed was exceeded over the New York Central until Syracuse was reached. At Troy, although he was given to understand that he was to have a clear track, Dr. Jackson was obliged to follow the New York-Montreal sleeper into Burlington, where he arrived at 4:30 yesterday morning.
